# Kitchen Remodel What to Expect

---

## Average Duration

Good things take time! It will take us twelve to sixteen weeks to transform your current kitchen into your dream kitchen. Smaller remodels might not take as long.

## Budgeting

The total cost of your kitchen remodel will depend on the scope of your project and the finishes you choose. Our team will work with you to design a plan you love that fits your budget, and we will always provide you with a precise cost before construction begins.

## Planning

Sometimes it is easier to figure out what you don't like rather than what you do. List out what it is that doesn't function well with your kitchen. Is storage challenging? Do you need a flexible area for office space or school work? Kitchens these days are more than just a place for food preparation and cooking. We do everything from refreshing a kitchen with new cabinets and countertops to reworking the entire floor plan. We love to hear your ideas and will work with you to design a space you will enjoy for years to come!
